

*Can Animals*

GET  
SUNBURNED?

## The Answer is Yes!

- Animals with light colored noses, and short light hair are more prone to sunburn.
- Provide adequate shade and protection when your pets are outside.
- Try to bring your pets indoors during the hours of 10am-4pm!
- Call 3-1-1 to report an animal in distress or if they are not being provided with shade, water or food.
